Education

Anjuman-I-Islam Khalsekar Technical Campus – School of Engineering

Bachelor of Engineering in Computer Engineering

CGPA: 8.18

Navi Mumbai

2022–2026

Open Source Contributions

Open Source Contributor – Web Dev Path

Jul 2026 – Present

- Contributed **12+ merged pull requests** across production open-source repositories.
- Built a **responsive newsletter signup component** from Figma using React and TypeScript.
- Delivered features, bug fixes, Docker/CI improvements, and testing across Java, Node.js, TypeScript, and Python projects.
- Collaborated with maintainers through code reviews, improving security, documentation, and browser compatibility.

Technical Skills

Languages: Java, TypeScript, JavaScript, Python, Go, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Vite

Backend: Node.js, Express.js, Spring Boot, Hono, Elysia.js, FastAPI

Databases: PostgreSQL, MongoDB, MySQL, Firebase, Supabase

DevOps & Tools: Docker, Git, GitHub, GitHub Actions, Prisma, Render, Vercel

Core: REST APIs, WebSockets, JWT Authentication, OAuth, Data Structures, OOP

Projects

[MAZI – Collaborative Scheduling Platform](#)

Next.js • React • TypeScript • Prisma • PostgreSQL • Supabase

- Built a real-time collaborative scheduling platform where users create shared calendars and join using a Calendar ID and PIN without requiring accounts.
- Implemented interactive availability selection, overlap detection, and live collaboration to simplify group meeting scheduling.
- Developed a scalable full-stack application using Next.js Route Handlers, Prisma ORM, PostgreSQL, and Supabase with a responsive, modern UI.

[AI Router – Multi-Provider AI Gateway Platform](#)

TypeScript • Elysia.js • PostgreSQL • Prisma • OpenRouter

- Built a scalable AI gateway integrating multiple Large Language Model (LLM) providers through the OpenRouter API.
- Developed secure REST APIs with authentication, request validation, and rate limiting.
- Created a centralized dashboard for API key management, usage monitoring, and request analytics.
- Optimized PostgreSQL data access using Prisma ORM and structured the project with Turborepo.

[ChatStream – Real-Time Chat Application](#)

React • TypeScript • Node.js • Express.js • Socket.io • MongoDB

- Built a full-stack real-time chat application using Socket.io and WebSockets.
- Developed REST APIs with Express.js and MongoDB to persist chat history.
- Implemented typing indicators, online presence, timestamps, and auto-scrolling.
- Designed a responsive UI using React, TypeScript, Tailwind CSS, and reusable components.

[Chatbot Pro – Multi-Tenant SaaS Platform](#)

Next.js • TypeScript • Firebase

- Built a multi-tenant SaaS chatbot platform enabling organizations to manage independent AI chatbot instances.
- Implemented secure authentication, tenant-level data isolation, and role-based user management using Firebase Authentication.
- Developed real-time chatbot conversations and analytics dashboards to monitor chatbot usage and user engagement.
- Leveraged Firebase Firestore and Cloud Functions to build a scalable, serverless backend architecture.

[LinkForge – Secure URL Shortener](#)

Java • Spring Boot • Spring Security • MySQL • JWT

- Developed a secure URL shortening platform with JWT authentication and role-based access control.
- Built RESTful APIs for authentication, URL shortening, and redirection.
- Integrated MySQL using JPA/Hibernate following layered architecture.
- Applied Spring Security best practices for authentication and authorization.

Certifications

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Spring Framework for Java Development – Coursera
- Object-Oriented Programming in Java – IBM
- Java Data Structures for Beginners – Great Learning
