Education

Anjuman-I-Islam Khalsekar Technical Campus – School of Engineering
Bachelor of Engineering in Computer Engineering
CGPA: 8.18

Navi Mumbai
2022–2026

Open Source Contributions

Open Source Contributor – Web Dev Path

Jul 2026 – Present

- Contributed **12+ merged pull requests** across production open-source repositories.
- Built a **responsive newsletter signup component** from Figma using React and TypeScript.
- Delivered features, bug fixes, Docker/CI improvements, and testing across Java, Node.js, TypeScript, and Python projects.
- Collaborated with maintainers through code reviews, improving security, documentation, and browser compatibility.

Technical Skills

Languages: Java, TypeScript, JavaScript, Python, Go, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Vite

Backend: Node.js, Express.js, Spring Boot, Hono, Elysia.js, FastAPI

Databases: PostgreSQL, MongoDB, MySQL, Firebase, Supabase

DevOps & Tools: Docker, Git, GitHub, GitHub Actions, Prisma, Render, Vercel

Core: REST APIs, WebSockets, JWT Authentication, OAuth, Data Structures, OOP

Projects

[MAZI – Collaborative Scheduling Platform](#)

Next.js • React • TypeScript • Prisma • PostgreSQL • Supabase

- Built a real-time collaborative scheduling platform where users create shared calendars and join using a Calendar ID and PIN without requiring accounts.
- Implemented interactive availability selection, overlap detection, and live collaboration to simplify group meeting scheduling.
- Developed a scalable full-stack application using Next.js Route Handlers, Prisma ORM, PostgreSQL, and Supabase with a responsive, modern UI.

[CloudFleet – Fleet Management & Geofencing Platform](#)

React • TypeScript • Spring Boot • MySQL • WebSocket • AWS

- Built a full-stack fleet management platform for **vehicle management**, **geofencing**, and entry/exit alerts.
- Developed secure **Spring Boot REST APIs** with **JWT**, **Spring Security**, JPA/Hibernate, and MySQL.
- Implemented **WebSocket** communication for real-time alerts and deployed the backend on **AWS EC2**, with **RDS**, **S3**, and **IAM**.

[AI Router – Multi-Provider AI Gateway Platform](#)

TypeScript • Elysia.js • PostgreSQL • Prisma • OpenRouter

- Built a scalable AI gateway integrating multiple Large Language Model (LLM) providers through the OpenRouter API.
- Developed secure REST APIs with authentication, request validation, and rate limiting.
- Created a centralized dashboard for API key management, usage monitoring, and request analytics.
- Optimized PostgreSQL data access using Prisma ORM and structured the project with Turborepo.

[Chat-Bot-Pro – Multi-Tenant AI Chatbot Platform](#)

Next.js • TypeScript • Firebase • Groq API • Tailwind CSS

- Developed a multi-tenant SaaS AI chatbot platform with secure authentication and tenant-level data isolation.
- Integrated Groq API for real-time AI-powered conversations and dynamic chatbot responses.
- Built customizable embeddable chat widgets with configurable bot name, color, and greeting.
- Implemented analytics dashboards and admin features for monitoring chatbot usage and managing users.

[ChatStream – Real-Time Chat Application](#)

React • TypeScript • Node.js • Express.js • Socket.io • MongoDB

- Built a full-stack real-time chat application using Socket.io and WebSockets.
- Developed REST APIs with Express.js and MongoDB to persist chat history.
- Implemented typing indicators, online presence, timestamps, and auto-scrolling.
- Designed a responsive UI using React, TypeScript, Tailwind CSS, and reusable components.

Certifications

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Spring Framework for Java Development – Coursera
- Object-Oriented Programming in Java – IBM
- Java Data Structures for Beginners – Great Learning
